## Business in and with the Western Balkan Region in 2 days

Renewable energy and energy efficiency and all related topics are constantly increasing in the region. With the new energy law in Serbia (January 2015) the door was opened for international business and with the latest Feed In Tariffs (October 2015) the directions towards renewable energy were positively set. Those business friendly decisions adding new topics to our event.

## Poslovanje u regionu Zapadnog Balkana u samo 2 dana

Obnovljivi izvori energije i energetska efikasnost, kao i sve povezane teme su u stalnom porastu u regionu. Donošenjem novog zakona o energetici u Srbiji (Januar 2015) vrata su otvorena za međunarodno poslovanje, a sa zadnjim promenama Feed In tarifa, pozitivno su postavljene nasoke ka obnovljivim izvorima. Ove povoljne poslovne odluke dodaju našoj manifestaciji nove teme.
